*Would you like assistance interpreting
resistance test results?*

*Would you like the panel's
recommendations when choosing a
regimen for your patient with
HIV resistance?*

**The Florida/Caribbean AIDS Education
and Training Center is here to help!**

Interpreting resistance test results and choosing a regimen for your patient can be challenging. The Resistance Testing Consultation Panel comprised of faculty members of the Florida/Caribbean AIDS Education and Training Center can help.

This expert panel will review your resistance testing consultation requests and offer a response within two weeks of your submission. Based on the information you provide, several recommendations will be presented to help you determine the best antiretroviral therapy for your patient.
